# Preface

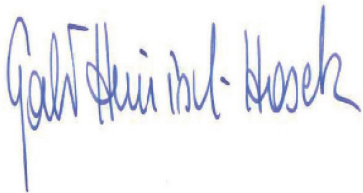

The Statistical Guide 2014 of the Federal Ministry of Education and Women's Affairs presents facts and figures about the educational system – particularly from the educational documentation of the previous school year 2013/14 – and about adult education.

The publication contains the familiar charts with data on schools, classes and pupils as well as student figures of the University Colleges of Teacher Education and data concerning the teaching staff. The present edition is extended by, among others, an enhanced consideration of the gender aspect, especially by explicit accounts of the procentual male and female proportion.

The 2014 issue of the Statistical Guide continues the bilingual series of the BMBF with the latest statistical data.

Yours,

- 1 Extrapolated figures. On account of the sample error, values less than 6,000 are inaccurate and cannot be interpreted statistically; they are put in parentheses.
- 2 Adults' participation in training and continuing education within four weeks prior to the survey; formal education: school (including apprenticeship) and higher education system; non-formal education: courses and training.
- 3 Refers to participants.
- 4 Percentage of the population aged 25 to 64 years participating in training and continuing education programmes (not including persons who interrupt attendance at school or higher education institution on account of holidays).
